## leads in popularity and dealer profit!

Thousands of people return to retail stores each day to replenish their supply of SKRIP. They know that with SKRIP and with SKRIP only, their pens write perfectly without any trouble whatsoever. SKRIP is sediment-free, non-clogging, quick drying, free flowing and contains absolutely nothing that can harm a pen. Equally good for general use as well as fountain pens. Sell PERMANENT SKRIP for business use, WASHABLE SKRIP for schools and homes, and avoid 10c store competition.

# TO OUR DEALERS . . .

We are coming to you in the year 1934 with a continuation of our dealer-protective policies. We want to thank the dealers of the United States for their splendid cooperation and it is encouraging to see that more dealers every year are realizing that they must support those manufacturers who are supporting them and keeping the fountain pen industry from being demoralized.

In this folder, you will see that we have brought out a VACUUM-FILLING pen—not as a SHEAFFER pen, but in our secondary line. The trade well knows our attitude in regard to fountain pen construction. We have not changed our views one particle.

We still believe that the lever filling pen that the SHEAFFER Pen Company now makes is the last word in a fountain pen and we have enclosed a little separate circular that we want everyone of you to read, explaining why we think it is the best pen in the world. This circular will give your sales force the reasons for presenting it to their customers above all others.

Other companies have featured vacuum-filling pens and are today featuring them because they realize they cannot compete for fine construction in the main point of a fountain pen, (which is the writing point) with the LIFETIME FEATHERTOUCH pen produced by our company. Therefore in order to side-track the main issue, they are featuring ink capacity.

We have been experimenting for years with a vacuum-filling pen and we have perfected what we actually believe is the best vacuum-filling pen that has ever been produced; but we do not believe any vacuum-filling pen will equal the SHEAFFER LEVER FILLING pen, as we are making it today. However, we cannot control the opinion of the American public and, for those who want a pen of this type, we are presenting at this time the best, most practical and greatest bargain in a vacuum-filling pen that has ever been offered to the American public. Every dealer should have a stock of them and you will be giving the people who prefer them the best vacuum-filling pen that can be produced.

We realize that every dealer must build his business by giving his customers the best article at a given price and we know that after studying the construction of different types of pens, you will realize that your future business depends on your featuring the LIFETIME FEATHERTOUCH BALANCE LEVER FILLING PEN.

We are presenting to you today the new EBONIZED PEARL pen, and we are explaining the construction of it so you will see how it is different in construction from any former pearl pen that has ever been manufactured. There is an actual layer of pearl between a transparent and a black sheet of pyroxylin and they are all fused together perfectly.

Remember that a dealer, in order to build a fountain pen business, must at all times in the year carry a stock of points so he can fit the customer's hand. This is necessary if the dealer wants to hold the customer so that when his fall purchases come, he will know where to go to see a complete assortment.

Our salesman will call on you in the very near future with many fine things for 1934. We ask you to give him a respectful hearing and we feel confident of the results.

# THE ONE-STROKE VACUUM-FIL PEN

To anyone interested in a vacuum-filling pen, here is the most practical one ever devised—the ONE STROKE VACUUM-FIL pen. The VACUUM-FIL is a sturdy pen with a virtually fool-proof mechanism. To fill, simply pull out the plunger and insert the point of the pen in a SKRIP bottle. Depress the plunger. One stroke fills full, taking in many times the amount of fluid that one stroke in a multiple stroke pen does. The transparent barrel shows the amount of fluid in the pen at all times.

The VACUUM-FIL cleans automatically. If you want to empty the pen of its contents, just pull the plunger out and, holding the point over a SKRIP bottle or other receptacle, depress the plunger. Notice that the writing fluid is expelled with great force. This means that any sediment in the pen is expelled with the fluid. This shows the great advantage in cleaning over Multiple Stroke pens, which require over 40 strokes to empty.

**THE VACUUM-FIL PEN HAS NO RUBBER SAC, NO CORK PLUNGER AND IS THE SIMPLEST, MOST PRACTICAL AND DURABLE IN CONSTRUCTION OF ANY PUMP OR VACUUM PEN. YOU MUST SEE IT TO APPRECIATE IT.**

VACUUM-FIL pens have strong clips, precision construction, sturdy gold points and large writing fluid capacity. The VACUUM-FIL pen is a \$5.00 value and is so labeled, but you can offer it to your customers at \$2.85 retail as an introductory offer. With your order for these pens, we will send you a beautiful card designed for window or counter use, depicting the VACUUM-FIL pen in colors and pointing out its mechanical superiorities. This card will help you sell.

Supplied in two colors, marine green and jet black. Pen illustrated is No. V6H, Marine Green. Black is No. V6L. Pencils to match are VH and VL respectively.

## THE VACUUM-FIL SET

The VACUUM-FIL pen can be matched with a companion pencil labeled at \$1.65. When pencils are ordered with VACUUM-FIL pens we supply an attractive gift box free with each set. The set has a label list price of \$6.65, \$5.00 for the pen, \$1.65 for the pencil. As an introductory offer, the sets should be sold at \$3.95 per set. Show the set. Your customer makes a saving and you make a larger sale.

# The Feathertouch REVELATOR

The FEATHERTOUCH REVELATOR will do these five things used in your window with two FEATHERTOUCH LIFETIME PENS:

- 1—PROVE THE FEATHERTOUCH PEN WRITES WITHOUT PRESSURE USED REGULARLY OR TURNED OVER.
- 2—DEMONSTRATE CONVINCINGLY FEATHERTOUCH TWO-WAY WRITING—A MEDIUM LINE IN USUAL POSITION, A FINE LINE TURNED OVER.
- 3—STOP PEOPLE AT YOUR COUNTER, OR AT YOUR WINDOW, THROUGH MOTION.
- 4—TELL THE COMPLETE FEATHERTOUCH STORY—A PEN IS AS GOOD AS ITS POINT—THEREFORE FEATHERTOUCH IS THE BEST BUY.
- 5—SHOW THE SMOOTH, EASY FLOW OF SKRIP.

The FEATHERTOUCH REVELATOR is a marvelously attractive window or counter display. You can use the machine part with or without the background, the background with or without the machine. Use it in the window, stop people, draw them into the store. Use it on your counter. Show customers, by tipping up the pens, that the FEATHERTOUCH REVELATOR exerts no pressure whatever on them. We recommend having two REVELATORS, so you will have one in your window and one on your counter simultaneously. Our special offer, see coupon below, provides the FEATHERTOUCH REVELATOR without eventual cost. Every Sheaffer dealer should have this new FEATHERTOUCH REVELATOR, no matter what other stores may also feature them. It will increase business tremendously in dull or good times of the year.
